Four students wish to have a cup of coffee during their break and have very little change.

A cup costs 35 euro cents.

The machine has no change left, the people in charge have just come to empty it.

Albert has a 1 euro coin and a 5 cents coin.

Bernard has a 50 cents coin and a 5 cents coin.

Claudia has a 20 cents coin and two 10 cents coins.

Daniela has two 20 cents coins.

Each of them wants his coffee and his change.

The machine serves one person at a time and gives back change only when it has some,

How are they going to manage ?
