

Epreuve 2 : Bleue comme une orange

Paul is making a square with mosaic tiles. He is using 18 square blue tiles and 18 square orange tiles.

He is going to keep to certain rules:

- in each row and column he will use 3 blue squares and 3 orange squares;
- in each row a square cannot touch 2 squares of its own colour;
- in each column a square cannot touch 2 squares of its own colour.

Colour in the white squares to complete the mosaic.
