

Riddle 2 : Enjoy your meal

Olivier, B elinda, Daniela and S ebastien are in a restaurant.

The bill is 48  . They will share the cost equally among the four of them but because they are celebrating B elinda's birthday and Daniela leaving to go to Madagascar:

- B elinda, Olivier and S ebastien will share the cost of Daniela's meal;
- Daniela, Olivier and S ebastien will share the cost of B elinda's meal.

How much will each person pay? Justify your answer.
