

Question 3 : Faroe Islands

Voir annexe

The flag of Norway is made by putting these 3 shapes one on top of the other:

Iceland made their flag by using the same method of putting shapes one on top of the other.

To mark their independent status the Faroe Islands wanted to have their own flag which would be different to Denmark or Iceland. But they wanted to use the same method and the same colours as Denmark and Iceland had done.

Colour in on the answer sheet all the possible flags that the Faroe Islands could have.
