

Question 6 : Forrest

Anthony has to work out where all the chocolates are in a box.

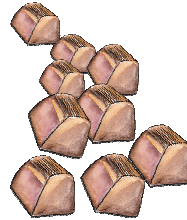

Here is a diagram of the box, it's a grid of squares.

Each number indicates the number of chocolates in a line or in a column. There can be just one chocolate in each square of the grid.

In this column there are 2 chocolates.

In this row there are 4 chocolates

	2	3	2	1	2	1
6						
0						
0						
4						
0						
1						

Colour in on the grid the squares where you find the chocolates.
