

Epreuve 7 : L'art ? J'm'en tamponne

In her art class Juliette has used a square grid to produce this painting in the style of Vasarely.

She used 6 ink stampers, all different, that were in the shape of a quadrilateral, triangle or circle. She sometimes printed one stamp on top of another.

Draw the shape printed by each of the 6 stampers on the square grid.

Attention : one square on the grid corresponds to one square on Juliette's painting.
