

Challenge 7 : Luncheon on the grass

See appendix

Going on a picnic Lucile, Jules and Matt have taken bread, chicken, radishes, carrots and watermelon.

They all eat 3 different things and we also know that:

- each foodstuff is chosen by a maximum of two children;
- Jules is the only one to eat meat;
- Lucile does not eat bread;
- Matt eats bread and at least one vegetable;
- the children who eat radishes also eat carrots.

Stick the foodstuffs that each child has chosen onto their plate.
