

Feuilles volantes

The sheets of pages of a magazine were badly stapled together and have now come apart.

Here is one complete sheet. You can see the page numbers 26 and 91 at the bottom of each page on the sheet.

On every sheet of the magazine there are 4 pages.

The cover page and the back page of the magazine are numbered as the first page and the last page.

How many sheets are there between pages 26 and 91 ?

Work out the total number of pages in the magazine. Explain your answer using a minimum of 30 words.
