

Question 7 : Nom valide

Mathis has just got his best score ever in a video game and wants to register it.

He writes his name, Mathis, by scrolling through the alphabet on the animated wheel using 4 buttons :

 et  lets you go from letter to letter, forward and back

 validates the character chosen

After each character is chosen the wheel goes back to A.

 Validates the full name

Every time you touch a button you hear a beep.

What is the minimum number of beeps that Mathis will hear when he registers his name ?
